

ABOUT 90+ CELLARS

One of the top brands in New England with phenomenal growth, 90+ Cellars takes advantage of the current economic conditions by purchasing high quality and highly rated finished wines direct from wineries at a discount and then passing the savings on to you.

The wines they purchase must have a pedigree of 90 or higher ratings, best buy or gold medal accolades from a respected wine authority or publication.

Other companies with a similar concept are usually buying the winery's excess or distressed wine. 90+ buys a winery's best and most highly rated finished wine, which they would normally sell under their own label. Wineries are willing to work with them because they either produced more than they need or sales have slowed. In return, they are promised complete anonymity, which 90+ takes very seriously.

The source wineries bottle and label these wines for 90+. 90+ simply searches out world class wine, negotiate a great price and then pass the savings on to customers. Upon release, each 90+ Cellars wine is assigned a "Lot" number. A lot is defined as a particular wine from a winery. On successful lots they may purchase the next vintage (if available) AND if the quality is the same or better. In the end, it is their goal to provide wine lovers with an outstanding bottle of wine at a great price. If you like the idea of fine wine for less money, then give these wines a try!
